DEVELOPMENT**

ELECTRICAL & CIVIL CONTRACTORS

COMPANY OVERVIEW

Established in 2014 as Vijaya Lakshmi Enterprises, our journey began as a specialized electrical contracting firm. Over the years, we expanded our expertise and rebranded as Vijaya Lakshmi Infra in 2021. Today, we stand as a premier infrastructure development company, delivering comprehensive electrical, civil, and engineering solutions for critical infrastructure projects across India.

We specialize in design, erection, shifting, and commissioning of High-Tension (HT) & Low-Tension (LT) power lines, substations, distribution transformer structures, and mini towers. Our holistic approach ensures seamless coordination with government agencies, utility providers, and private clients, offering innovative load-sharing and engineering solutions.

OUR VISION

To be a trusted leader in infrastructure development, consistently exceeding client expectations through excellence in engineering, safety, and service quality.

OUR MISSION

- To deliver high-quality infrastructure projects within optimal timeframes.
- To ensure safe working conditions and adhere to the highest industry standards.
- To foster long-term relationships based on trust, performance, and reliability

CORE COMPETENCIES

Vijaya Lakshmi Infra brings deep expertise in Transmission & Distribution (T&D) Systems, power infrastructure, and construction engineering. Our capabilities include:

ELECTRICAL INFRASTRUCTURE SERVICES:

- ✓ Survey, planning, and execution of HT/LT transmission lines.
- ✓ Erection, testing & commissioning of 33kV, 22kV, 11kV, and LT transmission lines.
- ✓ Installation & commissioning of electrical substations up to 33/11kV.
- ✓ Shifting & upgrading overhead lines and underground cable networks.
- ✓ Strengthening electrical networks with advanced conductors for enhanced load distribution.
- ✓ Construction & installation of mini towers for power transmission and road crossings.
- ✓ Integration of smart power solutions for efficient energy distribution.

CIVIL INFRASTRUCTURE & PROJECT EXECUTION:

- ✓ Execution of civil works associated with substations and power infrastructure.
- ✓ Site development and foundation construction for electrical towers & transformers.
- ✓ Road widening & utility shifting for infrastructure projects, including National and State Highways.
- ✓ Integration of renewable energy solutions within urban and rural electrical networks.

PROJECT EXCELLENCE & CLIENTELE

Our strong track record includes collaborations with leading government bodies and private sector organizations. We have successfully executed numerous large-scale power transmission, substation, and infrastructure projects across multiple states.

SELECT PROJECT HIGHLIGHTS

- ✓ 11kV Bay Extension & 5km Transmission Line – TSSPDCL, Hyderabad
- ✓ Erection of 15km 11kV Transmission Line – TSSPDCL, Hyderabad
- ✓ Construction of 33/11kV Substation at Cherlapally – TSSPDCL, Hyderabad
- ✓ Laying of 33kV XLPE UG Cable (17.5km) – Balaji Nagar to Sainikpuri
- Utility Shifting for National Highway (NH-227, NH-209) – Tamil Nadu
- Installation of Mini Towers for Urban Power Distribution – Hyderabad & Keesara
- Utility Shifting for State Highway SH-115 CKICP(109KM)KNRCL - Tamilnadu
- Utility Shifting for National Highway (NH-66) SPK&CO - Tamilnadu

COMMITMENT TO QUALITY & SAFETY

At Vijaya Lakshmi Infra, we prioritize safety, efficiency, and long-term sustainability in every project. Our dedicated project management team, skilled workforce, and adherence to industry best practices ensure that we deliver cost-effective, high-performance solutions to our clients.

OUR PROJECTS

WHY CHOOSE VIJAYA LAKSHMI INFRA?

Proven Expertise:

Over a decade of excellence in power & civil infrastructure.

End-to-End Solutions:

From survey & design to execution & commissioning.

Government & Private Sector Experience:

Trusted by leading utilities and organizations.

Commitment to Safety & Quality:

Stringent compliance with national and international standards.

Timely Execution:

Efficient project management for on-time and within-budget delivery.
